"STICKY FINGERS"

IPMS HORNCHURCH - NEWSLETTER

Dear Members

Firstly congratulations to Mick Pitts for winning both classes in last months Competition and don't forget that February's one is "Water Borne Aircraft" for the Aircraft section and "Ships" for the Miscellaneous section.

The Nationals lived up to its high standard again this year, two days of buying and looking at models, Heaven ! Robin's son, Peter, picked up a first in the Junior Section. I would like to thank Robin and his family for putting on such a good display for the Club and to the members for loaning their models out.

Model Engineering Exhibition

Below is a list of volunteers and what days they are available for the Model Engineers at Olympia, our stand has been moved to be beside Ted Taylor and the Barnet Club. If you feel that you can spend some time please let me know.

Saturday 28th	Setting Up	Steve Hubbard (providing transport) Alan Carr
Sunday 29th		Robin, Peter, Ian Brown
Monday 30th		Dave Ryan, Ken Sparks
Tuesday 31st		Bob, Wally, Owen
Wednesday 1st		Robin, Owen, Ken
Thursday 2nd		Dave Ryan, Wally (after 6 o'clock)
Friday 3rd		Bob
Saturday 4th	Breaking Down	Alan, Robin

As you can see Friday 3rd is a bit critical with only Bob being available, assuming Bob is not in hospital, so if some other bodies are able to help please do. Last month I did pick up the names of Mark and Paul but they did not tell me any dates.

I have contacted those members who expressed the wish to go out in January for the club meal, to prise a deposit out of them. If you are interested please see me tonight.

Lastly I hope you all have a very good Christmas and a Happy New Year.

Merry Modelling

ALAN
