### Essex Modellers Show Billericay

I ran out of time/effort last month to mention this show in our newsletter, sorry about that. As I mentioned at last month's meeting it was a well-attended show, not only from a club members point of view but also punters through the door. The show certainly felt quite busy for much of the day. My thanks goes to all the club members who turned out and manned the stand, provided models for the display and in some cases provided the work force behind the catering who as Robin intimated last month also made a good profit.

John Drummond has announced a healthy profit for the show and will be donating about £480 to St Francis Hospice. All 4 clubs will also receive a dividend of £85.

Not much purchasing from me, although a Trumpeter T-10M Soviet Heavy tank was a steal @ £15.

### Treasurer Role

Obviously with the sad loss of Bob we are now short of a club treasurer. Voting will be held at the club meeting tonight on the vacant role, there has been 1 person who has "thrown their hat in the ring" but is open to a vote should anyone else be interested.

Fairly obviously the basic duties are:-

1. Collect the meeting subscriptions from attending members
2. Pay subscriptions into club bank account
3. Maintain monthly/yearly balance sheet
4. Pay out any additional expenses for items such as refreshments, guest speakers and trophies

The monthly hall hire is on a standing order from the club bank account so not a lot to do for that one thankfully.

### Club Apparel

As resurrected at the last meeting, if I get enough people interested in club clothing I can put together an order. The more that the order contains the more likely the cost per item will come down. So far I have the following requests. Please check and let me know if there's anything wrong or missing before I place the order.

Club Member	Type	Size
<b>Allen Roffey</b>	Sweatshirt	XXL
	Polo shirt	XXL
<b>John Huston</b>	Polo shirt	L
	Fleece	M
<b>Bob Smith</b>	Polo shirt	XXL
<b>Kevin Curley</b>	Polo shirt	M
<b>Ralph Hebron</b>	Polo shirt	XXL
	Sweatshirt	XXL

## Wrighty's "References"

### WrySpy Warned You in 2014

September Sticky Fingers brought you 2 of the most evil acts of all time, in photos so horrible you could hardly forget it, enacted by ISIS (Islamic State) who call themselves Daesh, at present the most evil power on Earth.

### 36 Daesh fighters in atrocity hanged

IRAQ has executed dozens of Daesh militants convicted of taking part in a massacre of hundreds of soldiers in 2014.

The 36 men were hanged at Nasiriyah jail in southern Iraq yesterday, the justice ministry said. Daesh seized 1,700 troops from a military base when it overran Tikrit in 2014. The group posted images online of the soldiers being lined up in front of trenches and shot.

Let WrySpy offer something else, now we hear the raving lunatics have had some 36 removed from their roster and their title may be going too if the USA catch up with them. I think Guantanamo Bay Detention Centre is still operational and as you know the yanks don't mess about when they mean business, they deal in 100's not dozens, the time is due to come soon.

### Drone in near-miss with plane on landing

**Danger: A Flybe jet was targeted**  
A 'RECKLESS' drone pilot put the lives of 62 people at risk by flying his machine close to a plane as it came into land.  
Police have launched a search for the operator after the near-miss at Newquay airport in Cornwall.  
The Flybe jet, flying from Stansted in Essex, was two miles from its destination, travelling at 900ft, when pilots noticed the drone flying nearby.  
Police searched the area for the operator on Tuesday, after pilots contacted air traffic controllers about the scare, but could not find them.  
'This is an incredibly concerning incident, which we are treating very seriously,' said Insp Dave Meredith of Devon and Cornwall Police.  
'The close proximity of the drone to the aircraft shows a complete disregard for public safety and we are appealing to the public for information to track the operator.'  
An airport spokesman said: 'Although on this occasion there was no danger of collision, we reported the incident to police as the drone should not have been flying there without clearance.'

Reckless: Police hunt for operator

### WrySpy Gets It "All Right" This Time

#### Drones & Lasers

Covered in Sticky Fingers 146 the drones and lasers made their initial appearances in Feb/Mar 2016 and were duly reported to fill gaps in 2016 (crash list Sticky Fingers no. 146), but we did slip up on the fact that not only planes were the targets, for those lasers and now drones, ever since late 2015 Pentonville Prison was the target that criminal gangs were flying contraband over the wall and up to cell blocks where lasers were used as signalling devices like mobile phones. This was only discovered when a drone hit a wall and fell in flames to the street below. That's when it came to the notice of the Police. With the guidance of WrySpys agent John Edgeman, he also contributed to the other notice from a local newspaper.

## Worlds Largest Aircraft

telegraph pole as it was hustled by the wind around and forced to land nose dive into the ground (see photo 2). Seems Lee Cordell was on the ball and saved another success for Wryspy.

Hybrid Air Vehicles spokesperson claimed "all is well and the crew are safe and well".

Are you aware that the largest aircraft "Airlander" has picked up the record for Britain in early August as stated in the photo caption. A test flight was arranged from Cardington airfield near Bedford, it was declared a success by owners Hybrid Air Vehicles.

Airlander's 2<sup>nd</sup> test on 24/08/2016, as the photo explains the test flight went ahead and paid the price at Cardington airfield. The photos show the 302ft long plane collided with a

## Aircraft Crash List

The aircraft crash list for 2016 from January to May appears in Sticky Fingers 146, a repeat in case you have missed any, so will repeat with updates here:-

Dec 2015	Boeing B-737 crashes @ Johannesburg Airport
Jan 2016	Egyptian Airlines hijacked by IS (no details available)
Feb 2016 & March 2016	Laser & Drones warning – Virgin Atlantic airliner returns Later another airport – laser attack injures crew, days later another aircraft hit by drone & returns for damage repair at Heathrow
April 2016	Russian tourist airliner from Egypt, blown up over Gulf of Finland on way to Sankt Petersburg, loss. Revenge attack by IS
May 2016	EgyptAir airliner bound for Cairo, loss, dived into sea after pressure bomb exploded aboard
June 2016	French Airliner – Paris to Cairo, lost at sea
July 2016	Singapore Airlines Boeing B-777 caught fire at Milan
August 2016	Longest aircraft "Airlander" dives into ground in late August Airshow stunt pilot, lost control in dive into sea at Herne Bay Airshow 29/08/2016

[www.sticky-fingers.org.uk](http://www.sticky-fingers.org.uk)

Another careless pilot at airshow dived into the sea at Herne Bay near Margate on Bank Holiday Monday. More careful checks are needed and pilots records and of the aircraft itself before any more stunts are performed. The picture tells the story on this one.
